AUTHORITY PLATFORM

Four decades as a forensic economist, 6,750 cases and 637 trials, brought together in one record counsel can trust.

01 — WHY NOW

A record attorneys rely on, spread across many places.

Dear Bernard, thank you for your kind words about the preview. Since 1985 you have reviewed 6,750 cases and 637 trials, in 39 states and territories, including the U.S. Virgin Islands, and published on the cost of future care, life expectancy and hospital pricing from 1979 to 2025. Few forensic economists can show a record like it.

Today, that record is spread across two websites, a 33-page testimony listing, a CV in PDF and intake checklists that still point to an older email address. The figures don't always match from one place to the next. When an attorney is deciding whom to retain, that is often the first impression.

What we're proposing is our Authority Platform: a complete, done-for-you website on your own domain, built on the preview you've already seen. Nothing in it is fixed. We adjust the photos, the texts and the narrative angle with you, until it presents your work the way you feel most comfortable with and the way that serves your practice best.
