AUTHORITY PLATFORM

Thirty-seven years at ExxonMobil Chemical, more than 150 patents and a practice of your own, brought together in one authoritative record.

Prepared for **Dr. Patrick Brant**

01 — WHY NOW

A remarkable record, scattered across the web.

Dear Dr. Brant, thank you for taking the time to look at the preview we prepared for you. Thirty-seven years at ExxonMobil Chemical, more than 150 US patents, more than 75 publications and an award-winning product brought to market by a team you led: it is a record few people in polyolefins can match.

Today, that record lives in many places at once: patent databases, Google Scholar, conference biographies and professional profiles. They don't always agree. Depending on where one looks, your patents number anywhere from 120 to 175, and at least one directory places your doctorate at the wrong university. For anyone deciding whether to call you, that is often the first impression.

What we're proposing is our Authority Platform: a complete, done-for-you website that brings it all together in one place you control, with every figure confirmed by you and every claim linked to its source. We'd build on the preview you've already seen, refining every detail with you.

YOUR PREVIEW

IGNITEYOURSELF.CO/BRANT

02 — WHAT IT OPENS

What one authoritative record makes possible.

It is built for the people who are already looking for someone with your experience, and need to understand it quickly.

PATENT COUNSEL

Expert engagements

Counsel looking for an expert in olefin polymerisation, structure–property relationships or film technology find a verifiable record: your fields of expertise, patents and papers, each linked to its source.

R&D LEADERS & CONVERTERS

Advisory work

Teams that need someone who has carried a polyolefin from the bench to the plant see in minutes where your experience applies: catalysis, scale-up, films and membranes, adhesives, composites.

PARTNERS & INVESTORS

Ventures

Molecular Joinery and your work on plugging abandoned wells gain a credible home, where partners can see who is behind them and the record that supports them.

CONFERENCES, UNIVERSITIES, BOARDS

Invitations

Symposium chairs and universities get one accurate biography to introduce you with, and a clear picture of what you can speak on.

And one version of the facts, approved by you, to point to whenever someone asks.

03 — WHAT'S INCLUDED

Our team takes care of the entire process.

01 **Research**

Organising thirty-seven years, more than 150 patents and 75 papers into one clear, sourced record.

02 **Narrative & positioning**

Positioning around your fields of expertise and the work you do today, in a register suited to counsel, industry and academia.

03 **Content**

Writing every section, with each figure confirmed by you and each claim linked to its source.

04 **Visual identity**

A restrained, editorial identity built for authority, recognisably yours.

05 **Design & development**

Designing the website and getting everything fully developed, on desktop and mobile.

06 **Live on your domain**

Launched under your own domain, with hosting for the first year.

Our goal is for you to walk away with a record worthy of the career behind it, and a single place to send anyone who asks what you have done and what you do today.

04 — INVESTMENT

One complete investment.

STEP 01

A few questions

A short set of questions by email: the figures you prefer to publish, what can be said about your ExxonMobil years and the audiences you most want to reach.

STEP 02

Refined together

We build on your preview and refine every detail with you, in a couple of rounds.

STEP 03

Live and yours

Your platform goes live under your own domain, ready to share.

We'd be delighted to bring this to life with you, Dr. Brant. We'd love to hear what you think.

Warm regards,
Juanita
